

***STORED ENERGY  
for MOBILITY applications***

**Manbat provides a comprehensive range of superior quality batteries for all mobility applications.**

**Motorised wheelchairs, mobility scooters and similar applications all have one requirement, and that is reliability. Many people rely on these modes of transport day in day out to be able to get around from place to place, and to perform their daily tasks.**

**That is why it is vital to get the best quality battery for the application.**

**Manbat sources its batteries from the world's leading manufacturers. We provide our customers with superior batteries that boast quality, reliability, and dependability as well as both a long service life, and a long shelf life.**

**Manbat, through all of its nine branches placed strategically across the UK, and with the help of its dedicated team, strives to provide an unrivalled pre and post purchase service.**

**THE POWER OF  
NUMAX**

# Range of MOBILITY batteries / chargers

## NUMAX DEEP CYCLE AGM BATTERIES

Part No	VOLT	Ah	Length mm	Width mm	Height mm	Weight kgs
SLA7-12	12	8	151	65	100	2.6

SLC18-12	12	18	181	77	167	5.7
SLC22-12	12	22	181	77	167	5.8
SLC26-12	12	26	166	175	125	9.0
SLC34-12	12	34	195	130	180	10.2
SLC42-12	12	42	197	165	170	13.0
SLC75-12	12	75	260	168	233	25.5

## YUASA DEEP CYCLE AGM BATTERIES

Part No	VOLT	Ah/20hr	Length mm	Width mm	Height mm	Weight kgs
Y7-12	12	7	151	65	100	2.60
Y12-12	12	12	151	95	101	4.10
YC17-12	12	17	181	76	167	6.1
YC20-12	12	20	181	76	167	6.1
YC24-12	12	24	166	175	125	9.0
YC33-12	12	30	195	129	179	11.2
YC38-12	12	38	197	165	170	15.0
YC50-12	12	50	228	138	228	17.5
Y65-12	12	65	350	166	174	23.0
YC70-12	12	70	258	168	228	24.5
YC100-12	12	100	344	171	280	39.0

## NUMAX DEEP CYCLE GEL BATTERIES

Part No	VOLT	Ah/20hr	Length mm	Width mm	Height mm	Weight kgs
SLG26-12	12	26	166	175	125	9.0
SLG34-12	12	34	195	130	180	10.5
SLG42-12	12	42	197	165	170	13.8
SLG63-12	12	63	260	168	233	20.8
SLG75-12	12	75	260	168	233	26.0
SLG104-12	12	104	330	171	224	32.5

## SONNENSCHN DEEP CYCLE GEL BATTERIES

Part No	VOLT	Ah/20hr	Length mm	Width mm	Height mm	Weight kgs
GF12022YF	12	24	167	176	126	9.6
GF12025YG	12	28	197	132	180	11.1
GF12033YG2	12	38	210	175	175	14.6
GF12051Y1	12	56	278	175	190	21.8
GF12063YO	12	70	260	171	210	23.0
GF12065Y	12	75	353	175	190	26.0

## NUMAX AUTOMATIC CHARGERS

Part No	VOLT	Amp	Dimensions L x W x H	Weight kgs
120100	12	1	105 x 40 x 30	0.35
120200	12	2	105 x 40 x 30	0.35
120400	12	4	155 x 70 x 48	0.5
121000	12	10	167 x 103 x 50	0.9

## MANBAT HF MOBILITY CHARGERS

Part No	VOLT	Amp	Dimensions L x W x H	Weight kgs
240400	24	4	155 x 70x 48	0.5
240700	24	7	167 x 103 x 50	0.9

This comprehensive range of VRLA product is built to stand up to the harshest regimes. Our cyclic technology gives you a battery you can trust to give you the very best service for years.

Known and respected throughout the world as the very best VRLA technology that money can buy. It's no wonder that Manbat is a major distributor of this product. The low maintenance and valve regulated construction combine with heavy-duty plates and unique separator systems to ensure the NPC product lasts up to twice as long as conventional counterparts.

The great original in the Mobility industry – the battery that powered many of the first electric wheelchairs. Still constructed with the same superb 'gel' technology. The complete range is available from Manbat.

Manbat stocks a range of 'Connect and Forget' battery chargers specially constructed for Mobility applications.
