

STORED ENERGY
for MOTO-SPORT applications
*(Road/Sport Motorcycles, Scooters, ATV's,
Jet Skis, Snowmobiles)*

Manbat stocks a massive range of batteries to cover a similarly huge range of Moto-Sport applications.

Outstanding quality, durability and reliability come as standard as we source batteries only from the world leading manufacturers. This means we can always guarantee our customers the very latest technology, and very highest quality.

Manbat has a dedicated workforce at each of nine branches strategically placed around the UK. So, when you become a Manbat customer, not only do you benefit from having access to the best products available today, but also from our battery expertise which is second to none. Combined with a very high level of both pre and post purchase service our batteries are truly exceedingly great value for money.

Battery layout key:

NUMAX

Our range offers quality and value for money. It's not a short range either – we cover 90% of the vehicle range including conventional flooded types, VRLA types and AGM types.

VARTA

In addition our branches stock a complete range of VARTA motorcycle and jet ski batteries, and a range of American gel batteries for leisure vehicle applications.

NUMAX
connect + forget

Manbat stocks a range of 'Connect and Forget' battery chargers specially constructed for Moto-Sport applications.
