

STORED ENERGY VALVE REGULATED LEAD ACID batteries

Manbat stocks and distributes a complete line of Valve Regulated Lead Acid (VRLA) batteries to fit a huge range of different industrial and leisure applications. Typical VRLA applications include:

- Alarm systems
- Computer backup
- Emergency lighting
- Fire and security systems
- Floor Scrubbers
- Golf applications (caddies and buggies etc.)
- Marine
- Medical
- Mobility applications
- Toys
- Uninterruptible Power Supply (UPS)
- Plus many more

You can rely on Manbat's comprehensive range of quality VRLA batteries for reliability and quality combined with both long service life, and long shelf life. And being Sealed Lead Acid batteries they are of course completely maintenance free as and can be legally transported on aeroplanes.

And, when you include Manbat's product expertise, legendary service, and nine branches placed strategically around the UK that will distribute your batteries to you not only quickly and efficiently but also at no extra cost, then Manbat offers you unrivalled value for money.

THE POWER OF
NUMAX

Range of VRLA batteries / chargers
